I, the undersigned, am responsible for the preparation of these annual financial statements, which are set out on pages 6 to 31, in terms of Section 124(1)(a) of the Municipal Finance Management Act and which I have signed on behalf of the Municipality.

I certify that the remuneration of Councillors and in-kind benefits as disclosed in note 14 of these annual financial statements, are within the upper limits of the framework envisaged in Section 219 of the Constitution and the Public Office Bearers Act and the Minister of Provincial and Local Government's determination in accordance with that Act.

Municipal Manager

2006/10/02

FOREWORD BY HIS WORSHIP THE MAYOR

The last financial year 2005/2006 was infested with happenings detrimental to the normal running of the municipality. In its start there were investigation towards dissolution and thereafter dissolution itself, coupled with the elections for new term of local government, as well as the budgeting for 2006/2007 which took place late since council had been dissolved.

There were some good happenings, like we worked on the introduction of the free basic services, which helped a great deal to differentiate between the indigent people who cannot afford to pay and the consumers who can afford. This played a role in reducing non-differentiated resistance to pay since people could no longer hide collectively behind the pretext of poverty to avoid payment. In meetings utterances suggesting that the municipality is unreasonable for charging an increased tariff in spite of poverty, reduced with the introduction of free basic service to indigent.

It is worth noting that the free basic service had its dark side. The fact that we got little share of the subsidy for free basic service, from the government, compared to the long list of the indigent people who should get the free basic service is one bad spot which blemished our credit control policy, such that even during the Premier and Cabinet Imbizo which took place in August 2006, it did surfaced that there are indigent people for whom we have not yet afforded free basic service.

The electricity losses slightly dropped from 18.21% to 14% during the prior financial year and the water losses have dropped slightly from 64.88% to 63.3% and our revenue collection was approximately 95%.
